

Forum Train Europe FTE

The European coordination platform of
railway undertakings

FORUM TRAIN EUROPE

PLANNING TRAINS TO CONNECT EUROPE

The background of the slide is a large, high-quality photograph of a train yard at sunset. The sun is low on the horizon, casting a warm, golden glow over the scene. Numerous train tracks run parallel, with several freight trains loaded with cylindrical tank cars. In the background, some industrial buildings and a city skyline are visible under a sky filled with soft, orange-tinted clouds. The overall mood is one of industrial activity and connectivity.

Forum Train Europe

Your advantages

What is FTE?

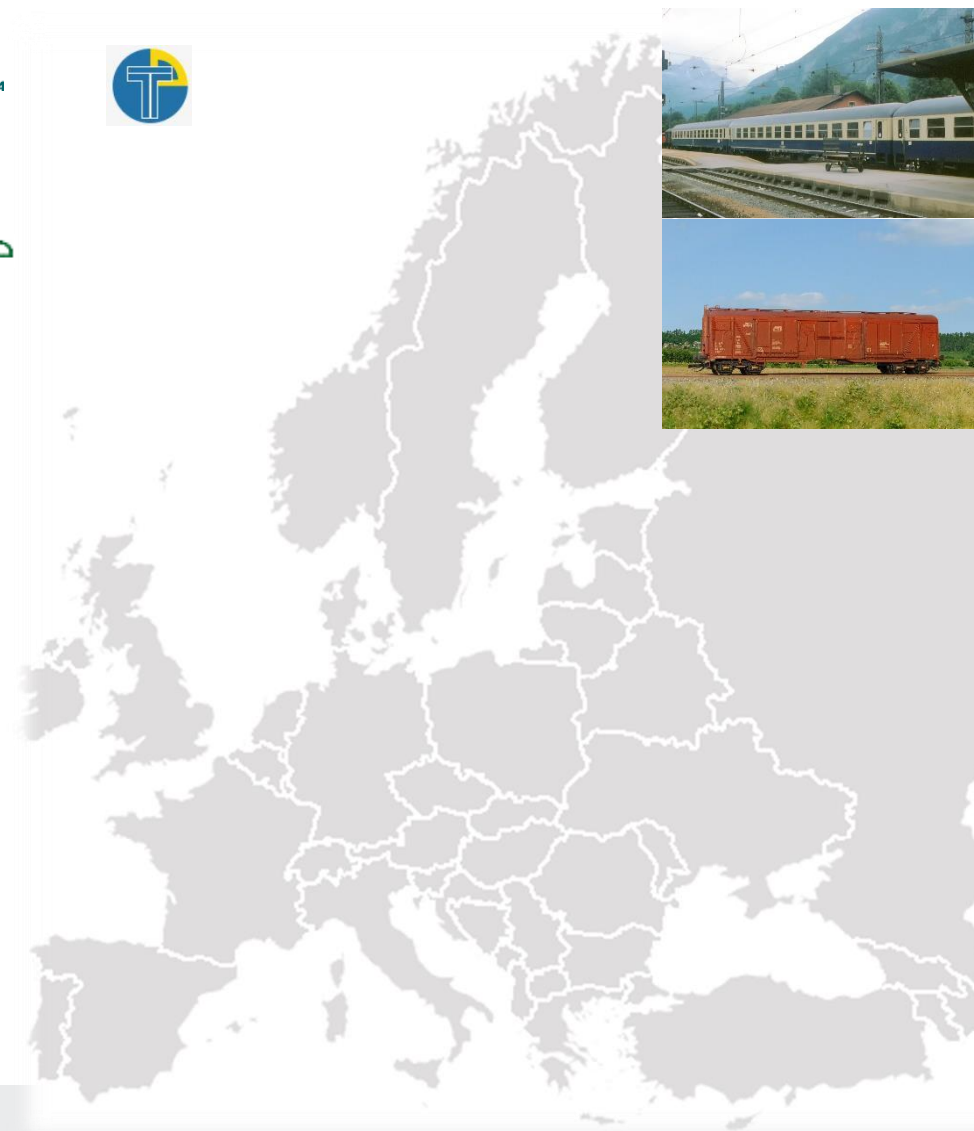

FTE is the European platform for Railway Undertakings
for Capacity Management and Timetabling

Almost 100 members in all over Europe

Passenger and Freight

Incumbents and new entrants

FTE Activities

Networking

Opportunities to strengthen and develop your network

Operative
Low-management
Higher-management

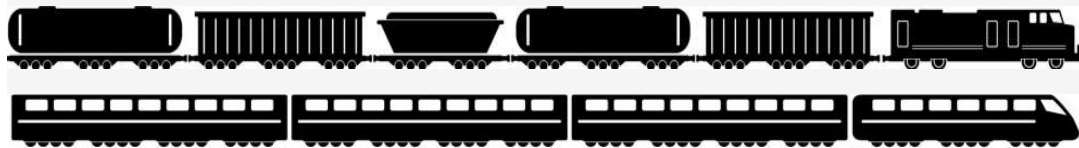

working groups, conferences,
special events

Discussion and unification

Platforms to:

- Exchange on topics/issues
- Learn from/support each other

Unification of RU needs

RU voice towards IMs and other stakeholders

Improve the Capacity Management of today

Analysis of today's:

- Timetabling & TCR processes
- Quality of timetables

Coordinated feedback to
and pressure on IMs

(Co-)leadship of several capacity
management projects to improve the
railway business

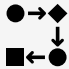

Influence the future railway world

FTE co-founded

FTE members can directly influence:

Process			IT
EU legal framework			Commercial Conditions

Join our table and change the future!
